EDUCATION

Pamantasan ng Lungsod ng Pasig   Pasig City
Bachelor of Science in Information Technology   *2023 - 2026*
Coursework: Data Structures & Algorithms, Object-Oriented Programming, Integrative Programming, Database Systems, Discrete Mathematics, Security & Assurance, Software Engineering, System Integration and Architecture
Awards:
- Dean's List Academic Achievement Awardee

Josel Rizal University   Mandaluyong City
Bachelor of Science in Information Technology   *2022 - 2023*

PROJECTS

Pamantasan ng Lungsod ng Pasig Quality Management System
Laravel, React, Inertia, Python, Typescript
- Developed the core QMS platform, automating workflows that streamlined university document management and significantly increased efficiency.
- Designed critical security layers, integrating Convolutional Neural Networks (CNNs) for digital signature verification and implementing a RBAC system to secure sensitive data.

Utang na Loob
Spring Boot, Spring Data JPA, Spring Security, React, TanStack Query, Zod, Axios, MySQL
- Designed a Spring Boot RESTful API (Services, DTOs) for debt CRUD and transaction logging, securing all endpoints via Spring Security (JWT).
- Synchronized complex client state using TanStack Query, enabling robust caching and invalidation for real-time customer and ledger data.

QuizCram
Laravel, React, Inertia, Typescript, SQL
- Developed an interactive web application designed to help users prepare for quizzes and exams
- Implemented features allowing users to organize quizzes by subject, customize quiz settings, and track performance metrics.

Barangay Sumilang Services Directory
HTML, CSS, JavaScript, PHP, MySQL
- Designed and implemented a web system to manage and streamline the certificate request workflow, integrating email notifications and a CMS for administrative control over system content.

React-Redux Bank
React, TypeScript, Redux Toolkit
- Developed a functional banking simulation application using React and Redux, incorporating essential features like withdrawals, deposits, loan management, and a currency converter.

SKILLS

Languages: JavaScript, TypeScript, Java, PHP
Databases: MySQL, PostgreSQL
Frameworks: Laravel, SpringBoot, Express, Tailwind CSS, Bootstrap
Libraries: React, Zod, Lombok, TanStack Query, Axios, Inertia
Developer Tools & Platforms: Git, GitHub, Figma
